STAND UP SURFACE INSTALL

Recommended tools

Hardware enclosed

- "L" Brackets – 1 per leg support
- #8 x 1-½ pan head screws – 1 per leg support
- #8 x 7/8 flat head screw – 6 per leg support
- #8 x ½ pan head screw – 2 per leg support

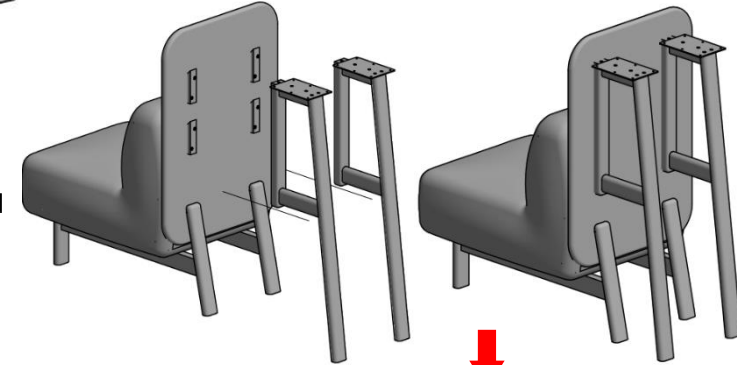

NOTE: all screws provided must be installed for proper installation and compliance with product warranty.

STEP 2:

- Apply downward pressure on the leg assembly to fully engage the cleat and the hanger
- Lock the leg support down with a #8x1-1/2 pan head screw thru the top of the rear support as shown. **Only do this with the hand screw driver** – fasten slowly – you may torque down with drill after hand tightened- ***This will help avoid pulling threads or foam when installing.***

STEP 3:

- Place the work surface on top of the support plates.
- Align pilot holes in top with holes in plate
- Use the #8x7/8 flat head screws to fasten top in place.
