BOLSTER INSTALL

Recommended tools

#2 Phillips Head

Hardware enclosed

"D" Rings – 2 per Bolster

#8 x 1/2 pan head screws – 2 per Bolster

NOTE: all screws provided must be installed for proper installation and compliance with product warranty.

Bolster comes with pre-installed straps for use with modular units.

(2) Extension straps for use with sectional units included

STEP 1:

- Turn unit on side you will not be applying the bolster to. Place on a furniture blanket or foam
- Set bolster on the side of the unit to locate where straps need to be fall "front-to-back" (see Fig A)
- Attach the "D" Rings to the bottom of the rail in the position where the straps will fall with the screws as shown. (see Fig B)
- When using with sectional pieces locate the "D" Rings at the edge of the dustcover (black material on bottom of unit) as shown. **Take care when applying screws thru upholstery. Use the hand drive only and go very slowly to prevent pulling threads or damaging the fabric.** (see Fig C)

BOLSTER INSTALL

Recommended tools

#2 Phillips Head

Hardware enclosed

"D" Rings – 2 per Bolster

#8 x 1/2 pan head screws – 2 per Bolster

NOTE: all screws provided must be installed for proper installation and compliance with product warranty.

STEP 2:

- Clip the bolsters straps to the "D"Ring as shown for modular use
- Clip the bolster to the extension straps and then to the "D"Ring as shown for sectional use.
- Set the bolster on the seat of the unit that it's attached to.

STEP 3:

- Slide adjoining unit next to the unit bolster is attached to.
- Link together using ganging brackets (separate instructions)
- Installation complete
